Herndon photography

LEWISBURG — Photographer Deborah Herndon received best in show in Carnegie Hall’s 24th annual “Season of Colors” juried art exhibition for 2013 for her photograph “White Handrail, Collioure.” The regional exhibit opened Sept. 6.

Herndon described the photograph: “The theme is reflection. This artwork illustrates fluidity reflecting utility. It is a very unusual architectural feature of a century-old villa on the southern French coast near Spain.”
